

The best Senoner'park Hochkar of all times!

Rider heart, what more can you wish for? The Senoner'park Hochkar is ready and waiting for you with a mind-blowing setup. Park designer Mike Aflenzer and his crew have excelled themselves and constructed the best Senoner'park Hochkar since existence of the park. Also the riders at the action shooting were deeply impressed.

At perfect sunny skies, a beaming white and freshly shaped snowpark welcomed the riders for the action shooting on February 12th. Thus epic conditions for both the freeskiers **Felix Prankl, Chris Zulechner** and **Christoph Berger**, as well as for the snowboarders **Flo Galler, Karli Terzer, Rudi Janda, Georg Obermeissner** and **Kathi Holzmann**. Their task was to test the new lines of the Senoner'park Hochkar. Let's see what they have to say about the park:

Hey guys, so what can you tell us about the new Senoner'park Hochkar setup?

The park is really top-class! Each rider can hit many different lines and the obstacles are just perfectly shaped!

In your opinion, what makes the Senoner'park Hochkar so special?

It's just really cool that you can be so creative when choosing your lines – the sky is the limit! There is no chance that you get bored here! And of course also the kickers are amazing. Combined with the jib of the week, there is always something going on!

How did you like the shooting itself?

Of course we were super curious what the Senoner'park Hochkar has in offer this season. We know Mike (Add.: park designer Mike Aflenzer) is really progressive when it comes to new features, but we sure weren't expecting that it's gonna be that great! Moreover the weather was just perfect so we tried some massive moves on the boxes, jibs, kickers and tubes. But just see yourself on the pics and clips!

That's a brilliant idea! Check out the new freeski and snowboard clip and get the freestyle feeling directly on your screen. For the detailed setup, go to the Senoner'park Hochkar website, where you can see in real time which obstacles of the park are currently open.

New for all smartphone users is the **free Senoner'park Hochkar iPhone and Android app** – all the park information always in your pocket! Download it now at the Apple App Store or the Android Market!
